

ANYA COSMETIQUES reply to the growing desire for innovation and creativity of the market with:

MULTIHYA STICK *Formula code MHA/...*

PRODUCT ID:

It is a soin deluxe for all the perilabial area (see O zone) with an antiage intensive treatment. Promotes hydration, the progressive relaxation of superficial wrinkles, improving and revitalizing the skin tissue.

WHY WE LOVE IT :

Pro-age, well-age, anti-age... provide rich moisturization and not greasy, fast absorption.

FORMULATION HIGHLIGHTS:

It contains:

- **High molecular weight hyaluronic acid**, it is rich of mineral which exerts its action exclusively on the surface, creating a barrier that prevents skin drying and increases hydration. **Hydrating effect**: increases and maintains skin hydration, to hinder the formation of superficial wrinkles and improve physiological hydration.
- **Vectorized hyaluronic acid**, with hydrating filler effect: hyaluronic acid microspheres, which penetrate the epidermis, capture the skin's natural moisture, increase volume and help lift wrinkles from the inside and smooth out surface imperfections. **Smoothing effect**: visibly reduces the roughness of the skin while significantly reducing the volume of wrinkles. The skin is softer and smoother.
- **Low molecular weight hyaluronic acid** (at the epidermal basal layer level), with its progressive regenerating and bioactivating action, it contributes, over time, to the vitality of the skin tissue. **Protective effect**: helps to limit the damage caused by UV radiation, protecting the DNA and proteins of the skin, preventing photo-aging.
- **Cross-linked hyaluronic acid** (cross-linked) “long lasting” effect: gives an immediate effect of hydration, better and longer lasting. **Regenerating effect**: restores the structural components of the skin damaged by oxidative stress, restoring density, elasticity and brightness.
- **Hyaluronic acid liposomes**: it is a hyaluronic acid protected by a liposomal structure. **Toning effect**: promotes an extraordinary toning effect, thanks to the high concentration of moisturizing agents associated with those dedicated to deep nourishment.

TRENDS IT SUPPORTS:

 Zoom Ready
  0% Mineral Oil Free
  J-Beauty
  Gluten Free

 Property Manufacturing Process
  For All Skin Type
  Long Lasting Wellness
  Dermatologically Tested

 Nickel Tested
